HAL-9000 seems to be the most powerful and developed computer in the world. In the film 2001, HAL became operational on 12 January 1992. He has the ability to control everything in ...

March 2018

HAL 9000 replica controlled by Amazon Alexa

Master Replicas Group has created a HAL 9000 Replica that uses Amazon Alexa to control Your Home. [...] Not only can you talk and interact with HAL, recreating some of the movie's more quotable human-AI repartee, the wall-mounted replica also has Amazon's Alexa built-in, which you can use to check the weather, turn lights on and off, or ask to open the pod bay doors when HAL refuses.

1973

Westworld - Michael Crichton

... Europe, and ancient Persia, the guests can fight and have sex. It might come up if there were a

In the movie, a virus begins to spread, and the robots refuse a guest's "advanced" sword fight.

Westworld splits its time into various parts of futuristic America called Delos where guests can enjoy recreations of three different time periods: the old west, medieval ...

October 2017

Can machines achieve emotional intelligence?

A fully autonomous, conscious, decision-making humanoid bot is, at the moment, the stuff of fiction. And yet, 'affective computing', or the capability to recognize, respond to and even emulate human emotions is present in some of today's machines. So to what extent can machines exhibit emotional intelligence? And how are these capabilities being put to use?

1977

Star Wars - R2-D2 - George Lucas

... himself with "facial" displays. The issue is not one of the body, or of the issue is a much harder one: how to express appropriate way?

Computers have still not been able to appear the appearance of having emotions. R2D2 doesn't have a humanoid body, far from it, but the fact that he expresses ...

April 2018

Paro robots are the new therapy

Robots called comfort companions can fill this void, by offering the benefits of therapy animals without the downsides of germs, allergies and cost. [...] Paro started in 1993 as a project in Japan and went into production in 2005. Now in its ninth design, it's used in over 30 countries to treat people with dementia, cancer, anxiety, autism and Down syndrome.

1982

spacecraft in order to achieve his goal, that he comes to have murderous impulses

HAL-9000 seems to be the most powerful and developed computer in the world. In the film 2001, HAL became operational on 12 January 1992. He has the ability to control everything in the...

February 2018

Chinese police now use facial recognition glasses

Chinese police officers were spotted wearing surveillance sunglasses equipped with facial recognition software that allows them to identify individuals in a crowd. These surveillance sunglasses were actually rolled out last year, but a recent report from China's QQ published a series of photos of the glasses in action.

1995

Ghost in the Shell - Motoko Kusanagi - Mamoru Oshii

... suite

devoted and enforced, physically powerful, allows her to blend

Motoko Kusanagi, protagonist of the anime and manga Ghost in the Shell, is a synthetic "full-body prosthesis" augmented-cybernetic human. She's dedicated to be a perfect soldier...

October 2017

First robot to have citizenship

Saudi Arabia has become the first country to give a robot citizenship. [...] The robot, named Sophia, was confirmed as a Saudi citizen during a business event in Riyadh, according to an official Saudi press release. [...] Then followed an interview during which Mr Sorkin asked the robot a series of questions.

2001

A.I. Intelligence art. - Theodore - Sam Neill

... suite

...to meet their needs: household chores, male pleasure Mecha.

In a futuristic world ravaged by global warming and where procreation is strictly regulated, human beings live in perfect harmony with the "mechas", androids robots specially created...

Janvier 2018

Pepper's next gig is at Pizza Hut

Male sex robots with bionic penises will be rolled out this year according to the pioneer of pleasure behind the popular female versions that dropped last year. The application enables users to match an AI personality with a humanoid robot head, to create the most realistic sex doll imaginable.

2008

Wall-E - Andrew Stanton

... suite

Little robot Wall-E was designed to clean up the planet. He is self-sufficient and is fattening in the space. He is self-sufficient. He doesn't feel loneliness until

Disney animators have demonstrated that emotion expression can be communicated effectively through characters, such as Wall-E, even though he doesn't have a humanoid bodies.

March 2018

Pepper's next gig is at Pizza Hut

Pepper is a friendly robotic fella who can interact with humans and even be your best buddy, if you like. SoftBank, which created the cute humanoid robot in collaboration with French robotics company Aldebaran SAS, had high hopes for Pepper when the first one rolled off the production line in 2015.

2009

Summer Wars - Platform "Oz" - Mamoru Hosoda

... suite

own custom avatars can interact with the real world. The other contrasting setting is an old-fashioned countryside area. In the movie Oz is

Summer Wars presents us with two different settings and conflicts. Oz, an internet-based society in which tens of millions of people and businesses around the world, represented by their ..
